

The Tour and its Results.

Governor Musgrave has just completed a tour of the principal part of the Colony of British Columbia. The fact of His Excellency having, so soon after his arrival, penetrated into the most remote districts has very naturally given birth to fresh and lively expectations. It is not at all unreasonable that such an illustration as the Colony has just witnessed of the Governor's determination to see and judge for himself should inspire an anxious and long-suffering people with fresh hope, and lead them to conclude that we have at last got just the right sort of man for Governor. That the people have arrived at this conclusion may readily be gathered from the various addresses which have been presented to His Excellency at the different towns, settlements and mining camps on the Mainland. But the Colonists will eagerly look for results—the fruits of all this, in practical measures of legislation, calculated to relieve the Colony from an oppressive Civil List, and inspire new life and liberty in the development of its resources. There are three distinct classes of interests which will not have failed to impress themselves upon His Excellency's attention, during his tour from the seaboard to the foot-hills of the Rocky Mountains: The commercial and maritime interests of Victoria; the agricultural and forest interests of the lower and midland districts; and the great mineral interests of the interior. Although in some sense distinct, these interests are so dovetailed together that one cannot suffer without all suffering with it, any more than one can flourish without all being relatively benefited. Doubtless His Excellency will also have been impressed with the fact that each and everyone of these interests are suffering, and that each demands legislative and Executive relief. The commerce of Victoria is hide-bound and fettered, and asks to be set free. The agricultural interests are unappreciated and are, for the most part, treated with chilling neglect. The lumber interests are stunted for want of local encouragement and free entry into California. The mining interests languish for lack of water. The law, as regards water-ditches, must be liberalised, and encouragement must be given to develop "The Meadows" on William Creek, by combined effort; while avenues must be opened up so as to enable our own people to command the trade of the Southern mines. These subjects will present to His Excellency a field sufficiently wide for the exercise of all his administrative powers; and they will afford sufficient work for the Legislative Council. The people will look for early results. With a wonderful amount of patience they have waited year after year and session after session; and now that a gentleman of colonial experience and, apparently, possessed of energy and decision of character sufficient to turn that experience to practical account, has, happily, been placed at the head of affairs, the colonists will look for early fruit. They are reasonable, and will not expect the Governor to work miracles; but they will expect him to administer the affairs of the Colony in the interest of the people, instead of, as hitherto, in that of the governing classes. They will expect him to send down to the Legislature estimates and measures which will show a fixed purpose to lift this fine colony out of that "Slough of Despond" in which a long series of mis-government and consequent adversity have sunk it. No better opportunity could be presented for the exercise of administrative ability; and the colonists expect that Governor Musgrave will avail himself of it at the earliest opportunity. No Governor could well be placed in circumstances of a more trying nature, and the people strongly suspect that His Excellency will prove himself in every way equal to the exigencies of the occasion.

The Victoria Police.

It is not often that we feel called upon to take up the pen in defence of the public institutions in this Colony, for the simple reason that the press and the people are for the most part too conservative to indulge in wanton attack. We have felt it our duty, however, to say a word in defence of the Victoria Police against what we cannot but regard as an unjustifiable attack made in the cowardly guise of an anonymous letter published in a local print. After alluding to several outrages the perpetrators of which have, it is claimed, "gone unwhipped of justice," the writer, behind the *nom de plume* of "Argus" says:—"What other conclusion can anyone come to, in view of this fact, than that the Police force of Victoria is an utterly inefficient institution? They seem to be good only for two things, and that is to entrap vendors of whisky to Indians and pick up jack tars who get tight and exceed their time of leave, and lock them up as stragglers or deserters. Doubtless their zeal in these respects is prompted by the hope of extra pay, without incurring risk of personal injury. One really efficient detective would be worth more than the whole present force put together." The efficiency of the Police in "entrapping vendors of whiskey to Indians" may be a fault in the estimation of "Argus"—it is doubtless very inconvenient to some persons—yet we are disposed to think it

will constitute a high recommendation in the estimation of all well regulated minds. As regards the second virtue attributed to the Police, it is somewhat singular that in the very print selected by "Argus" as his medium, appeared a few days ago, an article containing what we at the time conceived to be a most unwarrantable imputation upon the character of "jack tar" who on shore, and, at the same time, complaining that the Police were very remiss in their duty in arresting "Jack." The latter part of the above extract, it will be observed, couched in language studiously offensive, and imputes both corruption and cowardice. It is very much to be regretted that such words were ever penned, and still more so that they should have been found in the community willing to print them. Did it not strike "Argus" that he was committing a cowardly act in casting such imputations upon any body of men, while carefully concealing himself behind a borrowed name? "Argus" may be a very honorable and courageous man; but the circumstances under which he has chosen to make an attack upon the Police force of the city are, to employ the mildest terms, very unfortunate. If he really believed what he wrote, why did he not in a manly and open way append his own name to the charge, and thus afford the members of the body asspersed an opportunity, if they were so minded, of proving at least to his satisfaction that they were no cowards? Considered as a detective force for the purpose of ferreting out crime in the country districts, we are ready to admit the inefficiency of the Police; but that is no fault of their own. They are to be regarded as a force for the suppression of disorder and crime in the city. These duties, we believe, they honestly and faithfully endeavor to discharge; and if occasionally called upon to go out to the country they do so for the most part at their own charges, and under circumstances scarcely favorable to efficiency as detectives. The assertion that "one really efficient detective would be worth more than the whole present force put together" is absurd on the face of it. No detective, however efficient, could be omnipresent; he could not even be present in all parts of the city at once, much less in town and country. It would doubtless suit some people very well to have such an arrangement; but we scarcely think it would conduce to law and good order. In conclusion, we have only to express our regret that such an attack should have been made upon what we believe to be a very deserving body of men, and especially that it should have been made in such a way as to render it difficult if not impossible for the accused to defend themselves.

The Clinton Address to His Excellency.

To His Excellency Anthony Musgrave, Governor of British Columbia and its Dependencies, Commander-in-Chief and Vice-Admiral of the same, &c., &c.
MAY IT PLEASE YOUR EXCELLENCY,

The undersigned have been deputed by the residents of Lillooet and Clinton to congratulate your Excellency upon your return from the interior.

We are very much gratified to know that we have a gentleman among us who, not content to determine the condition of the Colony from the representations of others, has resolved to see for himself.

We do not, of course, use a mere phrase when we say that we do not expect that your Excellency will place a fortune at the disposal of every man in the Colony, or that our vast resources will be developed in a day.

The people of this Colony never have and never will demand from any Governor that which they well know no Governor could grant—impossibilities.

But we sincerely hope that your Excellency's visit among us will result in the removal of just discontents: in the gradual development of our hidden wealth; in the discovery of a new era in our political history; in the admission of this Colony, upon equitable terms, into the Dominion; and in the welfare and happiness of the whole people.

We have the honor to be, Your Excellency's obedient servants,
T. BASIL HUMPHREYS,
JOHN SAUL,
JAMES HURON,
HENRY HOWARD,
JOHN COHENHALL.

GENTLEMEN:
I thank you for your address, and I appreciate the good sense which is obvious in your ready admission that no Governor can work impossibilities.

But I do assure you of my anxious desire to labor for the removal of all just cause for discontent, and to strive with the community for the development of all our available resources.

It will be to me a source of great pride and gratification if I should be enabled to assist in arrangements for the admission of this Colony into the Dominion on equitable terms. But in any case it will be a pleasure as well as my duty to endeavor to promote the welfare and the happiness of the community over which I have been appointed to preside.

THE ASSAULT WITH A BOTTLE—Charley, a Fort Rupert Indian, was brought up in the Police Court yesterday morning to answer a charge of having savagely assaulted a white man named George Phillips. Sergt. McCarthy produced a cap and a number of pieces of glass—the latter the remains of a porter bottle—which were picked up near the scene of the affray; some of the pieces of glass had human hair and blood upon them when found. The cap is out through on the left side, and the cut corresponds with the position of the wounds on the man's head.

"Cockeye," and an Indian, testified that with the prisoner, two other Indians and a squaw he was asleep in his cabin, when Phillips came to the door and tried to get in. Prisoner told him to go away—that he could not get what he wanted there, whereupon Phillips struck and knocked him down and ran off. Upon regaining his feet prisoner ran after Phillips and struck him upon the head with a bottle. Prisoner was here remanded for three days. The condition of the wounded man is very precarious.

SAANICH HARVEST HOME—The Saanich Harvest Home was held on Wednesday last, and occasioned a large gathering at the Church and a cordial interchange of kindly sentiment. The Church was tastefully decorated and at 1 o'clock divine service was held, the Very Rev. Dean Chidgey preaching an eloquent Thanksgiving sermon. Prayers were read by the Incumbent, Rev J O B Cave. A collection was taken up after service to go towards plastering the church, upon which a considerable sum has been recently spent in improvements. The clergyman and Mrs Cave provided a substantial lunch, to which over 60 sat down. Rev Mr Cave delivered an address to the company, which was well received, and the assemblage departed for their homes with many manifestations of regard for their host and hostess.

LONDON HOUSE.—"Rich and rare" are the dry and millinery goods now being opened at this well known establishment. The goods were selected from the choicest manufactures of Great Britain and France, and came by last express. The stock is now one of the most extensive and best assorted on the coast. The firm have advices from their London partners that in order to send out the latest fashions for winter they are having made especially for them novelties in furs, gowns and millinery, very choice seal mantles and millinery, very choice seal jackets, etc. These goods will arrive next steamer. Their winter stock of Alexander gloves are also being made to their order in Paris.

ATTEMPT AT MURDER.—A man named Armstrong fired twice at M. Bottrell, of Cowichan, a few days ago, with a Henry rifle. Armstrong wished to cross a stream and took Bottrell's canoe without the owner's permission. Bottrell remonstrated and the other took aim and fired. Both balls missed. A warrant is out for Armstrong.

RELEASED.—The goods of W. Milby, seized by the American revenue officers south of the boundary line, in transit for Kootenay, were released on payment of a promissory note and expenses of collection, which he had given some time before in part payment of duties upon a pack-train on its way from Kootenay to Portland.

CRICKET.—A match will be played to day between the Collegiate Eleven and the Victoria (Juvenile) Eleven. The wickets will be pitched at 1 p.m.

The News from Kootenay.
Mr. Johnston left Ferry Creek on the 27th and the Monje on the 28th September bringing a mail and express. On Ferry Creek the Cameron co had struck bedrock at a depth of sixty four feet, obtaining a prospect on the ledge; but a stratum of gravel a depth of three feet just over the bedrock, pays one dollar to the pan. The various companies were generally making from wages upwards. The Hoff or St Mary's claim still continues to pay well. The Discovery was also paying well.

On Wild Horse the hydraulics were generally doing well, the Sanders, Nip and Tuck, Keio, and Griffin co's in particular, owing in a great measure to abundance of water.

Weaver Creek, on the Monje, discovered by George Weaver, promises well. Six companies are making from \$20 to \$30 per day to the hand. The Discovery made alone six hundred dollars in two weeks. Dr. Brouse of Yale struck a prospect in the hill above the bed of the Creek as high as \$9 to the pan. Several other companies are making from wages up to an ounce per day to the hand. About fifty men are at work making wages.

On Rock Creek the Flume co had got on good ground and anticipated a large wash-up. On Rich Bar on the Similkameen good diggings are struck, but the amount of paying ground is limited. From reliable information in the district as high as \$105 was made in one day with a rocker, but the general wages is from \$10 to an ounce per day.

The trails are in fair condition considering the amount of rain which fell lately. The mountains are clear of snow but the streams are very high.

The Indians are quiet and peaceable along the entire route. Since the recent trouble at Wild Horse Creek not an Indian has been in camp, much to the relief of the inhabitants; as their pillaging propensities rendered them a continual source of annoyance. The weather on the outward trip was stormy and boisterous but generally mild on the return.

Passed Judge Ball and party on the way out on the morning of the 20th Sept. 70 miles from Kootenay. The party arrived safe at Princeton, Similkameen, and proceeded to Lytton via Nicola Lake with the intention of meeting the Governor.

The steamer Forty-nine was expected daily at Fort Shepherd and would make one more trip this season to Big Bend. Met Heron's male train 60 miles from Ferry Creek on the 30th Sept. loaded for Milby & Hicks; 35 days out; all well and packs in good order.

The various camps are well supplied with provisions, liquors and goods of all kinds, and so scarcity is apprehended the next six months.

FALL FASHIONS FOR 1869.—JUST RECEIVED AT VICTORIA HOUSE, BY EXPRESS The latest styles of Fur Sets, Seal Skis and Velvet Mantles, Hats and Bonnets, Flowers and Feathers, Lace Ribbons, Trimmings, Satins, Silks, Poplins, Linseys, Serges, Camlets, French Merino, Empress Cloth, Plaids, Waterproof Tweed, Danish Crape, Baratte, Lace and Damask Curtains, Broche and Woolen Shawls, Corsets and a large assortment of Haberdashery, Hosiery, and Under-clothing. WILLIAM DENNY, MANAGER.

THE AGRICULTURAL AND HORTICULTURAL SOCIETY will hold a meeting on Monday next, the 18th inst., at 2 o'clock, in Smith's Hall, when the Treasurer's report will be read and other business transacted. The early and full attendance of subscribers is requested.

THE CUTTING OF TIMBER FROM OGDEN POINT continues with unabated vigor. Either this property belongs to the Colony or it does not; and it is time that the Government either established its right to it or threw it open to preemption.

ARREST OF A HIGHWAYMAN.—A man named Henry Monster was arrested last evening. He is charged with robbing a Puget Sounder of a watch on the Saanich road.

THE SHOOTING FOR TUNSTALL & CO'S Solder rifle will come off to-day at Clover Point, commencing at 11 o'clock.

PROSPECTING.—A prospecting party has left Cowichan to explore the neighboring streams.

THE ENTERPRISE got off for the river at 3 o'clock yesterday afternoon.

THE INCENDIARY FIRES.
EDITOR BRITISH COLONIST.—In your paper of the 12th inst., after enumerating half-a-dozen instances of houses, churches or barns recently burnt, and endorsed as incendiary by the verdicts of the several juries which were empaneled, you add, "all these fires were purposely caused, apparently by the same person. Now, who is he?"

Let the Government offer a reward of one thousand dollars to bring the culprit to justice and outsiders, let the dream of, will interest themselves in the inquiry.

Surely, insurance companies and property owners, as well as the general public, have a deep interest in causing such an inquiry to be set on foot as would result from such a measure.

New York, Oct. 14.—A Herald special, dated Bombay, Oct. 11th, says Mr. Kirke received a letter from Dr. Livingstone, dated 8th July 1868, in which the doctor informs him that he believes he has discovered the source of the Nile at a point between 10 and 12 degrees south.

He was on his way to the coast road which was open and safe. Another caravan was expected here which will bring later information of his progress.

MADRID, Oct. 14.—The Epoch to-day publishes a synopsis of the reply of Silveira to a note of Sickles. Silveira says reasons dictated by national dignity prevent the acceptance of foreign mediation in the domestic affairs of Spain.

PARIS, Oct. 14.—The Siecle to-day has a general review of the policy of the Empire of France. The article says France continues to guard the temporal power of the Pope contrary to agreement; it backs up the Council in which the Jesuits propose to outrage modern society. No explanations are offered and equal ignorance is suffered to exist as to what assistance has been given the present Government of Spain.

WE know that suspension of constitutional liberty in the country coincides with Prim's return from Paris. The Siecle gives reasons for the appointment of Gen. Fleming as Ambassador to St. Petersburg and continues, "the moment has arrived when France wishes to know something about her foreign as well as her home policy—to know the end aimed at—whether peace or war. At the crisis the adjournment of the Corps was an act of supreme impolicy. On these and other questions clear and precise explanations are required, which Government alone can give. Its foreign policy is still directed by the unhappy tradition of diplomatic mystery."

The British Columbian Investment and Loan Society.

THE ADVANTAGES TO BE DERIVED FROM THE SOCIETY ARE THAT it not only offers a safe and profitable investment for money in large or small sums, and holds out an inducement to the industrial classes to be provident in their habits, an easy method of acquiring homesteads and making a provision for their families, but will be the means from month to month of accumulating and applying for useful purposes a large amount of money which otherwise would be distributed amongst the community in small sums and lying idle, or would be squandered.

The Investor will be relieved from the trouble of considering the sufficiency of property offered as security for loans and the investigation of the Title, and may feel assured that everything will receive due attention, and should a loss occur it will be spread over the whole capital of the Society and will not fall on himself alone. He will receive his income at stated times and will be relieved from the importunities of improvident or importunate debtors, and also from the possibility of having to enforce the provisions in his deeds of security.

The borrower applies to the Society as a matter of right, and chooses his own time for redemption with the assurance that he is giving fair value for what he receives and therefore in no wise compromises his independence. That by promptly meeting the small periodical payments which no individual mortgage would accept, he is gradually paying off his mortgage debt. That he is not subject to the caprices of any individual who may sacrifice his property by enforcing payment unexpectedly. And that should he wish to sell, exchange, or redeem his property, he can at any time accomplish his purpose on certain equitable principles.

In the preparation of the explanatory remarks, advantage has been taken by the writer, of the possession of the Prospectus and papers relating to a Permanent Building Society, and of his experience obtained during his connection with that Society which continued up to the time of his coming to this Colony.

Unvalled Nonsense—Beecher on the War Path.

Henry Ward Beecher having in one of his pleasant letters to the Ledger, ventured humorously to recommend cultivation as a means of exterminating the Canada thistle, a solemn pedant, writing to the Christian Intelligencer over the signature of 'Puritan,' undertakes to administer a ponderous rebuke to the witty Brooklyn divine. The point of 'Puritan's' article is in these sentences.

'Henry Ward Beecher says. The only way to exterminate the Canada thistle is to plant it for a crop, and propose to make money out of it. Then worms will know it, bugs will bite it, beetles will bore it, aphids will suck it, birds will pick it, heat will scorch it, rains will drown it, and mildew will blight and cover it. These bugs, beetles, aphides, heat, rain and mildew are the messengers of God. If they are sent, they are on an errand for God! Now, if the above extract has a point, it is that when mankind plants a crop of any kind of grain or seed, God takes a malicious pleasure in defeating such schemes! Such a statement is far deeper in its tone than a mere murmur.

Especially as Mr. Beecher's farm at Fishkill is well known to be cultivated with reference to making money.

Mr. Beecher, who likes nothing better than to deal with an antagonist who exposes himself so recklessly, retorts with perfect good humor in this effective fashion:

This is exquisite! If mildew attacks my grape vines it is on an errand for God, and if I sprinkle it with sulphur as a remedy, I put brimstone into the very face of God's messenger. When it rains—is not rain, too, God's messenger?—does Puritan dare to open a blasphemous umbrella and to push it up into the very face of this Divine messenger? When a child is attacked by one of 'God's messengers'—the measles, cancer rash, dysentery, scarlet fever—would it be a very great sin to send for a doctor on purpose that he might resist these divine messengers?

There are inso a which attack men, against one we set up combs, against another sulphur. 'Nay,' says Puritan, 'if they are sent they are on an errand for God.'

Yes, we confess it. A 'murmur' very imperfectly expresses our feelings as we dig a Canada thistle, or squirt whale oil or soap-suds over a myriad of Puritan's divine messengers, called aphides. A grumble would not be too strong a word to use on such occasions.

Nay, the reverend gentleman has been known to say, in a paroxysm of horticultural impiety, 'I wish every rose bug on the place were dead!' which must seem to Puritan a piece of horrible depravity.

I did not know before that I had a farm in Fishkill. My experience with the farm at Peekskill, 'which is well known to be cultivated with reference to making money,' is such, that if it be true that I own another farm at Fishkill, I shall consider myself on the straight road to the poorhouse.

I may have been mistaken, but it has seemed to me that every crop that I have attempted to raise has had swarms of 'messengers' sent upon it. But, until now, I never suspected that God sent them in any other sense than that in which he sends diseases, famines, tyrants, literary 'Puritans,' and all other evils which afflict humanity.

But what is to be done about this matter? If it be 'blasphemy' to speak against bugs, it can be but little short of sacrilege to smash them. Here I have been, in the blindness of unrepentant depravity, slaughtering millions of the messengers of God, called aphides! I have ruthlessly slain those other angelic 'messengers,' call mosquitoes, who come singing to us with misplaced confidence. I have even 'tried d' at fleas and spoken irreverently of gnats.'

WINE REWARD.—It must be a source of gratification and pride to the inventor, after years of study and toil, to have his name and efforts in the world's labor are appreciated. This is particularly the case with Dr. Walker's Vegetable Vinegar Elixer, which is composed of purely vegetable preparations, making the most effectual alternative that it is possible for the medical intelligent and skill of our times to produce.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.H. Prince Napoleon

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as sole cures for every possible disease, as they are applicable only to a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine or in the practice of the first medical men, are authorized by the Government. This fact must be a guarantee for the excellence of Messrs. Grimault & Co.'s medicines.
